MEMORANDUM FOR: Director, Consolidated SAFE Project Office

FROM: [REDACTED]

Director, Information Resources Office

STATINTL

SUBJECT: SAFE Contract

1. In preparation for, and as background to the SAFE Program Review, we would like to have a complete understanding of the status of the [REDACTED] contract.

2. In reviewing the copy of the contract previously furnished us, I noticed that under Paragraph G of the contract order, Alterations to General Provisions, it is stated in reference to Section E, Form 1424E (September 1977); Article 1, Negotiated Overhead Rates and Article 6, Allowable Cost, Fixed Fee and Payment: "Delete and substitute: 'DAR 7-203.4(b) 1978, Allowable Cost, Incentive Fee and Payment';" and Article 9, Limitation of Cost (1966 Oct): "Delete and substitute 'DAR 7-402.2(c) Limitation of Funds (1966 Oct)'." We were not provided with a copy of the referenced substitutions. I would, therefore, appreciate being supplied with copies.

3. Please furnish us with copies of all amendments to the contract. In this connection, we notice that Amendment No. 8 proposed to incorporate in the contract 10 change orders. In addition to the amendments themselves, we would appreciate being furnished with copies of all change orders which have the effect of amending the contract, whether by specific reference, as in the case of Amendment No. 8, by virtue of requiring a change in cost, or in any other substantial particular. Where cost changes are involved, we request that all documentation bearing on the amount thereof be also supplied.

4. In order to better understand the progress of Requirements Definition, we request that we be provided with the following:

STATINTL

a. Action Item T-28 -
10 Mar 80

STATINTL

b. Action Item T-29 -
14 Mar 80

c. Action Item T-25 -
[REDACTED]
Response.

STATINTL

5. Finally, and perhaps even more fundamental to understanding the status of the contract, we understood that in order to reduce the estimated cost and target cost proposed by [redacted] to the contract figure [redacted] it was necessary to accept certain limitations to the IOC configurations of the system such as a reduction in the number of terminals, and relaxation of the requirements as stated in the CSRD for response times and reliability, and a limitation on the number of DIA files to be converted. However, the contract document as signed, Exhibit B, Statement of Work, Paragraph 3.0, states: "The Contractor shall provide all personnel, equipment, facilities, and services required and perform those tasks necessary to deliver the Consolidated SAFE System in IOC Configuration in accordance with the Consolidated SAFE Requirements Document." Please furnish the documentation which incorporates all of the adjustments to the requirements which resulted in the finally agreed upon cost estimate.
